

# How You Can Create Jobs in America

## Oct. 2015

### Purchase American Made Products:

"American people spending American dollars on American products equals American jobs." [Read 6 other reasons why you should be purchase American Made Products.](#)

### Source Local Manufacturing Companies:

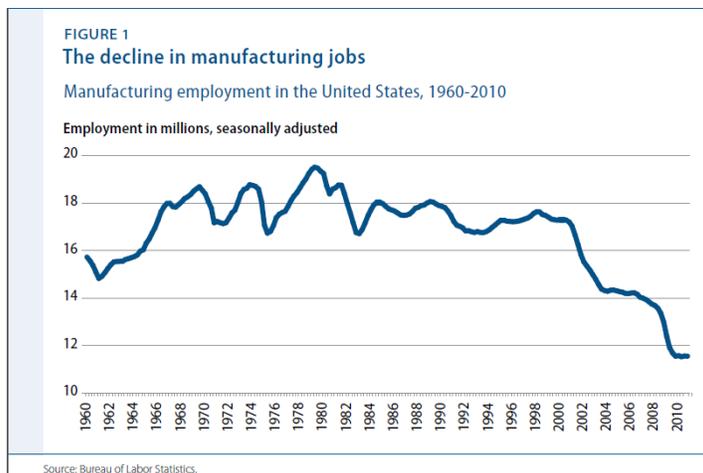

Jim Tankersley explains in "[The 100% Economy: Why the U.S. Needs a Strong Middle Class to Survive](#)" how the middle class spending power and disposable income creates jobs.

**"Middle-class families have more disposable income than low-income families, who largely buy only necessities, and they're more likely to spend their disposable income than wealthy families are."**

[Center for American Progress](#) also explains how millions of middle class jobs "creates upward mobility and broadens and strengthens the middle class to the benefit of the entire economy."

### DID YOU KNOW?

"Manufacturing supports an estimated 17.6 million jobs in the United States." That's 12% of jobs! Find out more from [National Association of Manufacturing](#)

### Innovate in the States:

Caitlin Burke's talks with Henry Morse from Reshoring Initiative in [CBN News](#). "Turns out you can't innovate the product very well if you don't manufacture the product," Moser said. "So when you can bring together the engineering manager, the engineer and the factory worker, get them together as a team, improve the product, improve the process by which the product is made, it works a lot better."

[Center for American Progress](#) explains how a "critical element in the innovative process--- is eventually broken" when factory jobs are offshored.
